MEP RICHARD HOWITT AT THE NEIC SESSION

At the Session of the National Euro-Integration Council (NEIC) dedicated to the 2013 EC Progress Report, besides the EU Ambassador, Mr. Aivo Orav and the Ambassadors of several EU Member States, MEP and European Parliament Rapporteur for Macedonia, Mr. Richard Howitt attended the meeting. Presenting the Report, the EU Ambassador Orav pointed out that is of particular importance that the European Commission issued for the fifth time its recommendations for start of negotiations with the Republic of Macedonia. MEP Richard Howitt said that NEIC plays very important role in providing broader consensus for EU integration as well as for the political dialogue as mentioned in the Progress Report. Regarding the reform of the public administration, Mr. Howitt mentioned that additional efforts are needed to guarantee professionalism and independence of the administration and the equal representation. Absence of specific number of people employed in the public administration raises concerns among member states. Involvement of civil society in the parliamen-

tary process and adoption of decisions is particularly important. Implementation of recommendations from the Committee of Inquiry regarding 24th December events and amendments to the Rules of Procedure in the spirit of the signed Inter-Party Memorandum is an important step to be taken before the December Council Summit. Freedom of expression and situation in the media will be one of the key issues discussed in the European Parliament. Mr. Howitt emphasized that Republic of Macedonia can not stay in a status quo situation and the position both of the European Commission and the European Parliament is that Copenhagen criteria have been met, but part of EU Member States do not agree with that and they have to be convinced in this matter.

The Deputy-Prime Minister in charge of EU Affairs, Mr. Fatmir Besimi informed the audience that the Working Committee in the Government held a meeting, after the analysis on the Progress Report and made by the Secretariat for EU Affairs and that relevant institutions started to prepare NPAA revision to take into consideration the recommendations in the Progress Report. He pointed out that it is very important for the Republic of Macedonia to start the negotiations that will contribute to the intensity of making reforms and for finding solution to the name issue with the Republic of Greece. The Council will adopt conclusions on the EC Progress Report that will be submitted for adoption on plenary session.

Mr. Kastler pointed out that the European Parliament is one of the biggest friends of Macedonia for EU membership, as proved by the Resolutions adopted several years in a row by the European Parliament, prepared by the Rapporteur Richard Howitt. He also said that the lack of bilateral contacts on Presidential level between two neighboring states for more than 25 years should be changed in future. Mr. Tunne Kelam, also being a former JPC Co-Chair, mentioned that the JPC meetings contribute for a direct bilateral cooperation with the European Parliament and their Final Recommendations played an impor-

tant role for Government negotiating positions during Estonia's EU integration. Regarding the reforms to be made and the overcome of the political crisis in Parliament, Mr. Kelam said that if continued in this manner, the country is on a good track to receive its deserved place in the European Union.
