Unit for Approximation of the Legislation

**PROGRAMME FOR APPROXIMATION OF THE
NATIONAL LEGISLATION TO THE LEGISLATION
OF THE EUROPEAN UNION
FOR 2004**

Skopje, April 2004

Preface

The Programme for Approximation of the National Legislation with the EU Legislation for 2004 appears in a very important period of the European integration process in the Republic of Macedonia. The Stabilization and Association Agreement entered into force on 1st of April 2004, after its ratification.

On 22 March 2004 the Republic of Macedonia officially submitted the application for full membership in the EU.

At the same time, the European Commission is working intensively on the establishment of a new instrument for cooperation – European Partnership, which will give a new dimension to the relationship between the Republic of Macedonia and the European Union.

After the Thessalonica Summit held in June 2003, the new instruments for EU assistance, like Twinning and the services of the TAIEX office were made available to the Republic of Macedonia.

The Programme for Approximation of the National Legislation with that of the EU is complementary with the work programme of the Government of the Republic of Macedonia for 2004.

Furthermore, this issue signifies a qualitative and quantitative progress regarding the activities for approximation of the national legislation with the EU Legislation for 2004.

*Ministries and other responsible authorities develop capacity for midterm planning, the focus being transferred to the approximation of the secondary legislation and a more profound analysis of the EU measures of the different chapters of *acquis communautaire* is being conducted.*

In the course of the preparation of the Programme for Approximation of the National Legislation with the EU Legislation for 2004, each Ministry made a revision of the EU measures in their competence, correction of the time limit for adoption the legal acts, taking into account their own capacities, the existing technical assistance and the budgetary funds.

A large number of bilateral meetings took place during the process of preparation of this document, which showed that a qualitative step forward was made in the perception of the European Legislation, its complexity and comprehension of its fiscal and institutional implications.

Contents and objective of the document

The objective of the document is to give a cross-cut of the current status, institutions, mechanisms and planned activities in the process of approximation of the legislation.

It is composed of the following segments:

(1) Programme for Approximation of the National Legislation with the EU Legislation for 2004

(2) Annex: List of Conventions

Besides the above-mentioned Annex – List of Conventions, among the significant novelties that improve the quality of the Programme for 2004 is the introduction of a unique number for identification of the legal acts, the presentation of more detailed information regarding the translated EU measures, as well as information about the distribution of the EU measures according to the acquis communautaire and the CELEX (Directory of Community Legislation).

The Programme contains a clear picture not only of the connection between the national legal acts and the European Legislation, but also of the relation between the secondary and primary legislation. The link between them can be identified by the ordinal number of the legal acts proposed by the ministries (e.g. 03.00 signifies a number of a law; 03.01 signifies a number of a by-law).

Description of all positions included in the Programme is given below.

These information give a complete overview of the planned legal activities, including the EU measures that are to be implemented as well as deadlines for enactment and entering into force. This structure of the Programme allows an easier way of monitoring its realization and updating.
