PRIME-MINISTER OF THE REPUBLIC OF MONTENEGRO IN THE MACEDONIAN PARLIAMENT

"Both the Republic of Macedonia and the Republic Montenegro share common values and interests in their Euro-Atlantic integration, which further develops the bilateral relations and contributes to the stability of the region. Thus, I sincerely wish, to Montenegro and to its citizens that the integration processes, and the integration in NATO in particular, to be finalized without obstacles, stated the President of the Assembly of the Republic of Macedonia, Mr. Trajko Veljanoski.

The role of the parliaments is crucial in the EU integration process, since parliaments on one hand are responsible for the adoption of laws, their harmonisation with the Acquis and on the other, they exercise control over the Executive branch. President

Veljanoski underlined that the Macedonian Assembly is prepared to share the experiences with the Parliament of Montenegro.

President Djukanovic stated that he, as a Prime Minister and the Government as a whole, always express regret on international forums that Macedonia is not a member of NATO. The Republic of Montenegro and all states from the region belong to Europe and the political and economic competitiveness cannot be efficient without integration of the region as a whole.

Both sides underlined that the economic cooperation is under the level of the political relations and that there is a need for intensification, for which there is interest by the governments and by the business communities.

THE REFORMS IN MACEDONIA ARE IN ACCORDANCE WITH THE EU STANDARDS - THE VISIT OF MR. VAN ROMPUY IS CONFIRMATION THAT THE COUNTRY IS GOING IN THE RIGHT DIRECTION

Following the visit of the President of the European Council, Mr. Herman Van Rompuy, to the region and to the Republic of Macedonia, the Co-Chairman of the Joint Parliamentary Committee Republic of Macedonia - EU, Mr. Aleksandar Spasenovski, gave the following statement:

„This is proof that the Union remains strongly committed to the enlargement policy. The decision to visit Macedonia is also a confirmation of the progress that the institutions are making in the process of harmonization

During the seminar, experiences were presented on the lessons learned from other NATO member countries. There was a general opinion that a greater commitment is necessary towards Macedonia, Kosovo and Bosnia and Herzegovina and their existing unresolved issues. Participants agreed that Macedonia is leader in the region and exporter of peace, but due to the open issue for the name of the state, is not member of the NATO club. The need for further implementation of the Ohrid Framework Agreement and for building an integrated multi-ethnic society was reaffirmed, as a model that is in the focus of interest in the region and wider. The need was emphasized for further consolidation of state institutions and democratic processes in the youngest state in the region, Kosovo and the point was made that Kosovo belongs to Europe and its future lies in the Euro-Atlantic structures.

The Seminar also took note of the important role of parliaments and their parliamentary dimension as one of the pillars for transparency of the Euro-Atlantic integration of all countries in this region. At the end, the participants concluded that if they can not agree on the past, they can try to agree on the future for joint integration in the NATO and the EU and reiterated the need for finding solutions as soon as possible on all open issues or disputes in the region.

„I would like to say that although at the incoming Lisbon Summit the main topic will be the New NATO Strategy, we are still waiting reaffirmation of the position of the Alliance for the open door policy and for further NATO enlargement", concluded in his final remarks at the Seminar, Mr. Talat Xhaferi, Head of the Parliamentary Delegation from the Assembly of the Republic of Macedonia in the NATO Parliamentary Assembly.

of the Macedonian legal order in accordance with the standards and recommendations of the Union." According to Mr. Spasenovski, third important conclusion from the visit of Mr. Van Rompuy is that in the period after the publication of Report of the European Commission, the institutions have to make further efforts for fulfillment of the obligations with the aim of quicker integration of Macedonia in the Union.

Answering journalist's question about the effect of the name dispute with Greece on the European integration process, Mr. Spasenovski underlined that the issue is being resolved in the United Nations, while the country has an obligation to continue with the reforms of the Macedonian society in accordance with the standards of the European Union.
